DONAHEY PUTS BOOZE BUYER WITH SELLER

Ex-Governor, Here Today, Sees Need of Double Action Law Enforcement

Disregard of Dry Law Seen as Basis of Disrespect of Statutes in General

A customer who buys a pint of whiskey from an alley bootlegger is as serious a menace to the enforcement of all law as the liquor [illegible], in the opinion of Vic Donahey, three times governor of Ohio. This is the opinion expressed by the governor in an interview with a representative of The Marion Star.

Donahey is here today to attend a meeting of the Motorists Mutual Insurance Co., of which he is president. The meeting was held in Hotel Harding.

Donahey is opposed to the principle which makes the bootlegger guilty of law breaking but which allows the purchaser to go free. He suggests that both be held equally guilty as a means of enforcing the Eighteenth amendment.

A large and vigorous minority opposed to the Volstead act is teaching the American public disrespect for all laws, the former governor declared. This element, though a minority, [illegible] minority and many wet [illegible] are as radical in their be-

DRY OFFICER GETS PRISONER IN COURT

Given Custody of Howard Brookover at Habeas Corpus Hearing

Completely frustrating an otherwise legal application for a writ of habeas corpus, a federal prohibition agent stepped into the hearing of Howard Brookover in common pleas court today and after securing the dismissal of the application took Brookover with him, supposedly to Toledo.

Judge G. F. Scofield dismissed the petition after the federal officer had proven his identity.

Brookover and Harold Hall were apprehended by federal men Friday morning and imprisoned in the county jail. No charges were filed nor commitment papers given Sheriff J. F. Francis. Consequently Brookover's petition was a reasonable one until the officer appeared.

The identity of the officers has not been known since their somewhat mysterious appearance Friday morning. Unaided by local officials the agents arrested the two men and they are gone with them, probably to Toledo for trial.

Body of Foch Rests in Quiet, Serenity of Chapel In Notre Dame Cathedral

More Than Million Filed Past His Coffin in State Under Arch of Triumph Sunday. Widow Asks Public Tribute Be Only One Day

PARIS, March 25—The body of Marshal Ferdinand Foch today rested amid the quiet and serenity of a chapel in the Cathedral of Notre Dame.

In sharp contrast to yesterday when a mighty host of more than a million filed past his coffin which lay in state under the Arch of Triumph, only members of the marshal's family and a few friends were allowed to enter the chapel.

It had originally been planned that the body of the marshal should lie under the arch near the Tomb of the Unknown Soldier until this evening, but at the request of Madame Foch, who wished the public tribute to be confined to one day, the coffin was removed to the cathedral under a military escort last night.

Unlike another day 10 years ago when the marshal rode through this same symbol of victory and was hailed by a throng of cheering, idolizing countrymen, yesterday's was a solemn, silent throng sorrowfully paying its last tribute to a national hero.

APPROPRIATION BILL GOES BEFORE HOUSE

Measure Seeks $114,500,000 for General State Expenses

COLUMBUS, March 25—Introduction of the general appropriation bill is scheduled to feature tonight's session of the Ohio legislature. This measure appropriating approximately $114,500,000 of state funds to defray state governmental expenses during the coming two years is to be introduced in the house by Representative William Wenn, Columbus, chairman of the house finance committee.

The senate and house will reconvene following the regular week end recess at 7 o'clock tonight.

The big appropriation measure, it was learned, will appropriate about $66,500,000 from the state's general revenue fund and approximately $47,700,000 from highway and other special state funds for highway construction, maintenance and repairs and for other departmental expenses. House leaders plan to have the house pass the bill Wednesday or Thursday. It is expected to go through the senate sometime next week. It is understood that the measure, which provides for a moderate expansion program in the way of new buildings and their improvement at state institutions during the [illegible] biennium, has the approval of Gov. Myers Y. Cooper and Finance Director Harry Silver.

CREATES NEW JOB

COLUMBUS, March 25—Acting upon the suggestion of Gov. Myers Y. Cooper, Director of Public Works Richard T. Wisda created the office of consulting architect and selected Frank W. Bail, Cleveland architect, for this position, it was stated today at the governor's office.

This move is for the purpose of developing a new program of cooperation in the construction program of the state and to see that the most important buildings are taken care of, it was announced.

HOOVER REFUSES TO RECOMMEND RELIEF

President Silent as Committee Works on New Farm Bill

WASHINGTON, March 25—Denied the administrative counsel of President Hoover the senate agriculture committee today began the tedious task of drafting a new farm relief bill with the much discussed equalization fee eliminated.

The committee had a new McNary-Haugen bill stripped of the fee to use as a basis for the new relief measure. Its principal feature was a $300,000,000 revolving fund to be used by a federal farm board in making loans to farm organizations for the handling of surplus crops. A special insurance provision under which cooperative associations would be insured against price declines during the harvesting seasons may take the place of the equalization fee which twice provoked presidential vetoes. While Mr. Hoover declined to recommend any specific form for the desired legislation, committee members were studying the president's campaign speeches and previous announcements on the agricultural problem. They hoped to write a bill finally which will meet with presidential approval.

FLOOD, STORM DEATH TOLL 58 FOR WEEK-END

Thousands Seen Homeless as Waters Recede in Tennessee and Kentucky

20 SCOUTS SAVED

Eight Boys Lose Lives When Cabin Is Carried Down River

ATLANTA, March 25—Recession of the mountainous flood waters which cut paths of destruction through the narrow valleys of eastern Tennessee and Kentucky over the week end today revealed a death toll of [illegible], many thousands homeless and property damage far into the millions.

The Tennessee-Kentucky death list along with four drownings in Alabama and 16 deaths in six southeastern states from a series of freakish tornadoes increased the storm and flood fatalities in the stricken sections to 58 over the week end.

25,000 Homeless

Flood waters earlier in the month claimed 14 lives, caused tens of millions of dollars property damage and made 25,000 homeless in Georgia, Alabama and northwestern Florida. Since the middle of the month there have been 101 deaths in the southeast from floods and storms.

The greatest loss of life occurred in the eastern section of Tennessee. Mountain brooks and rivulets were swelled by cloudbursts into surging torrents which cut down through narrow valleys with such rapidity that scores of villagers were trapped without warning.

Twenty four deaths were reported by John Davis, chairman of relief work at Harriman, Tenn., while a few miles away eight Boy Scouts were drowned. They were carried away on the roof of their camp cabin by an overflow of White creek. Nearly a score of other scouts were rescued.

YOUTH FIRED ON BY BANDIT IS NEAR DEATH

Douglas Bibler, Former Local Resident, Victim of "Nervous Robber"

ASSAILANT 'SORRY'

Shooting in Cleveland Filling Station Believed To Be Accidental

Douglas Bibler, 19, former Marion county resident, is reported in a critical condition in a Cleveland hospital from wounds received at the hands of a robber who held up Bibler at a filling station in Cleveland where the youth was employed. A report received by local relatives of the wounded youth yesterday said that he was not expected to live.

A bullet from the robber's gun, believed to have been fired accidentally when the man became nervous and accidentally pulled the trigger, struck Bibler and penetrated one of his intestines. The shooting occurred last Thursday.

The gun victim is a son of Mr. and Mrs. Walter Bibler, who reside south of Marion. The father was a candidate for the Democratic nomination for clerk of courts in last year's primary.

According to young Bibler's story the robber displayed extreme nervousness when he entered the filling station and demanded money. Bibler put up no resistance.

After the shooting, he told Bibler that he "was sorry." He took $10 from the cash box, locked the wounded youth in the station and fled.

Cleveland police have rounded up several suspects but Bibler could not identify any of them as his assailant.

BELIEVE CRASH OF PLANE CAUSED FIRE

Sheriff Organizes Searching Party for Four Missing Fliers

NEW YORK, March 25—A forest fire half way between Waretown, N. J., and Forked River today was believed to have possibly been caused by the crash and following explosion of the missing Sikorsky amphibian plane which left Norwalk last Friday with four persons aboard.

The fire lighted up the sky Friday night following the time reported by a motorist that he saw a plane nose dive. The blaze was later extinguished by rainfall.

Comb Burnt Area

The sheriff's office at Toms River, N. J., telephoned International News Service this afternoon that a searching party including Acting Sheriff A. L. Holman, Special Deputy John J. Burke and County Jail Warden William L. Fanning were combing the burnt area for signs of the plane.

"If the plane exploded as we believe there would be only the motor and framework left, which would be difficult to spot in this heavily wooded section," a member of the searching party said.

Those aboard the ill-fated plane were:

Spring Cold Spell Due

Drop to 40 Degrees Forecast After Balmy Wave

A DROP of over 30 degrees from yesterday is predicted for Marion with the coming of 40-degree weather on tonight's program.

The first taste of real spring weather was experienced here yesterday when the mercury hung around 70 with 71 the high temperature for the day.

The first Sunday of spring found the highways jammed with motorists, many in shirt sleeves, and doors of homes thrown open.

Satisfied that fair weather has not appeared to stay, officials of the Marion post office have not moved the weather strip that covered the stone entrance there.

However 40 is not an unseasonable temperature but is normal weather for March, federal observers declare.

Light showers with lower temperature is scheduled for tonight in Marion with Tuesday fair and cooler. Yesterday's high was 71 in Marion, 10 degrees lower than the highest reading in Ohio, taken at Cincinnati. The low last night was 58. A year ago yesterday the highest temperature was 60 with the low at 50.

CATTLE TEST HERE DUE ABOUT MAY 1

Inspectors Coming to Marion County After Finishing in Ottawa County

Examination of Marion county dairy herds for traces of bovine tuberculosis will begin about May 1 under the county area plan, Dr. E. F. Gruber, city milk and meat inspector, stated today.

Federal and state inspectors will come to Marion county according to Dr. Gruber as soon as they finish their work in Ottawa county. The inspectors are now working there and are expected to be through by the latter part of April. They will come to Marion county when the work in Ottawa county is completed.

Cattle owners in five townships of the county have already signified their desire to have their cattle tested under the area plan, according to Dr. Gruber. These townships are Waldo, Pleasant, Prospect, Tully and Green Camp. Testing will probably be started in one of these townships, Dr. Gruber said today.

The city milk inspector stated today that petitions for inspections in Marion and Claridon townships contained practically enough names to insure the inspection. Signatures of 51 percent of the cattle owners who own 51 percent of the cattle in any township are necessary before an inspection can be made.

Officials here hope to make the test countywide as it is only in this way that the examination can reach its fullest efficiency.

The local Red Cross provided food for the family before they continued on their way to Elkhart. Bradley had served as a corporal in the army during the World war.

JOINT PROTEST EXPECTED IN SHIP SINKING

British and Canadians May Act as Result of "I'm Alone" Trouble

SERIOUSNESS EMPHASIZED

Investigation Conducted at New Orleans, Government Quizzing Captured Men

WASHINGTON, March 25—The sinking of the British schooner I'm Alone by gunfire of the coast guard cutter Dexter probably will result in a joint protest from the British and Canadian governments, it was stated at the British embassy today, but it may be several weeks before the investigation conducted by the British and Canadians is completed.

Word reached the British embassy from Consul General Henry Tom at New Orleans that the I'm Alone was of Canadian registry and that he was forwarding a full report to the embassy. Both the British and Canadian embassy officials emphasized the seriousness of the situation *no matter whether the coast guard's report* is accepted that the I'm Alone was within treaty waters when the pursuit started.

Crew of Sunken Ship Examined

NEW ORLEANS, La., March 25—Capt. A. J. Gamble, commander of the gulf division of the coast guard, today insisted that the "I'm Alone," British schooner sunk by a cutter Friday, was a rum runner and that the cutter had a right to sink it when it failed to submit to seizure. The statement of Captain Gamble followed an all day secret examination of the skipper and crew of the sunken schooner behind locked doors at the customs house here. The men were taken ashore early yesterday in handcuffs and secretly placed in separate taxicabs for the run to the customs house. Arriving there they were spirited to the examination room under heavy guard.

No official statement by the coast guard official was available. The British consul Henry Tom had asked that he be notified of the investigation but it is understood that his office was not officially notified of the quiz until late in the day. Vice Consul Simpson is believed to have reached the crew at about 7 o'clock yesterday afternoon after they had been questioned for seven hours.

Await Formal Charge

The skipper of the 'I'm Alone' and seven members of his crew were being held awaiting a formal charge of conspiracy to violate the prohibition law. Capt. John Thomas Randall, the skipper, is a Canadian.

German Dirigible Swings Eastward Over Mediterranean Holy Land

4-DAY TRIP PLANNED

Young Spaniards Off on Transatlantic Hop to Rio de Janeiro

Two spectacular flights were in progress today which might bring new aerial records.

Two young Spanish aviators, Capt. Francisco Jiminez and Capt. Francisco Iglesias, who hopped off at Seville, Spain, late yesterday on a transatlantic flight, were believed to be somewhere far out over the Atlantic today headed for Rio De Janeiro, Brazil. Before their takeoff they said that, if conditions were favorable, they *might keep on flying after* reaching Rio De Janeiro in an effort to break the long distance record for planes.

County's Quota for Military Training Camps Fixed; Enlistments Under Way

Pictured above is a typical scene in one of the Citizens Military Training camps where the government provides a month's outing and vacation annually for boys and young men accepted for enlistment

• • •

Seven Youths Already Enrolled by E H Shade County Chairman

Seven Marion county youths have already filed applications to attend the Citizens Military Training Camp this year the number being over half of the quota from this county. The quota was [illegible] to 10 this year as the county was over its quota 144 per cent last year. Applications should be made early this year to insure the opportunity of attending camp E. H. Shade chairman of enlistments in Marion county said today.

The seven boys whose applications have been accepted and who are now enrolled to attend the camp are Walter Moore, Gerald Shindlelecker, [illegible] William [illegible] Herman [illegible] Charles Frace, Ivan O'Brien and William Call. There are two [illegible] still at [illegible] from Prospect [illegible] who [illegible] accepted [illegible] come within [illegible] completing the Marion county quota.

This is Shade's second year as county chairman. Any one wishing to apply for admission to the camp should get in touch with him or Dr J. W. McMurray.

Fort Benjamin Harrison is the camp the beginners will attend this year and the dates for attendance are from June 20 to July 19. [illegible] advanced military students [illegible] Fort Thomas and Camp Knox [illegible] will be open from June [illegible] to July [illegible].

Recognition In College

Shade points to the fact that this military training is recognized in the [illegible] program of Ohio colleges [illegible] that students attending camp will be exempt from military training at school. A period of training in the summer is equal to one year of training in the schools. The student so desiring may make up his required military training in the camps.

The purpose of these camps is to bring together young men of all types both native and foreign born to develop closer national and social unity to teach the privileges, duties and responsibilities of American citizenship, to show the public by actual example that camp instruction of the kind contemplated will be to the liking of their [illegible] that it will develop them physically, mentally and morally and will teach them Americanism in its true sense.

Supplies Furnished

Practically everything required is furnished by the government. A list of the things required from the candidate includes four suits of underwear, six pairs of socks, six handkerchiefs, four face towels, two bath towels, two nightshirts or suits of pajamas, toilet and shaving articles packed in a handbag or suitcase and the civilian attire which he will wear to the camp. However the candidate is encouraged to take his [illegible] athletic uniforms, cameras etc.

Due to the recognized benefits derived from this training the public school system of Ohio offered one fourth of a credit towards graduation for each 30 day period in camp completed. This is for high school students only.

For applicants seeking to attend their first 30 day period in camp the age limits are [illegible].

MY MASTER AND BROTHER

Memory Verse for Monday

For the earth bringeth forth fruit of herself. (Mark 4:28) (Read [illegible] 12 to 20)

MEDITATION: Jesus has a great deal to say about our bearing fruit. He expected results. The story of the barren fig tree illustrates the stern demand. So I ask myself if I am a profitable servant. But how shall I tell? The product of a useful life is slow in appearing and very shy of showing itself at all. I observe too that people intent upon doing good to others often make themselves [illegible] and defeat their own ends. I will not [illegible] my soul over this thing. Of course I must be faithful and diligent but I need not be obtrusive or impatient. Straining effort is likely to be futile. When the seed is planted the rest is left to nature, the [illegible] and earth will not fail me. A good life filled with unselfish service will not be in vain. Results may safely be left with God.

PRAYER: O God of the seed time and of the harvest who alone dost give the increase, I give myself to Thee and pray that Thou wilt use me in Thy wide field to bring forth fruit unto life eternal. Amen.

Daily Proverb—A man shall be commended according to his wisdom but he that is of a perverse heart shall be despised

A story from Illinois tells about the destruction by fire of an abandoned malt plant out there. How come a malt plant ever was abandoned in Illinois?

The church advertising group of the New York Advertising club has offered a prize of $1 000 for the best full page advertisement on "Why Go to Church?" Wouldn't it work a great saving of composition to build the page on "Why Not Go to Church?"

A Newark man has convinced a New Jersey master in chancery that he is entitled to a divorce on his showing that his mother-in-law who lived with him and his wife had thirteen cats which generally occupied all the easy chairs and could not be removed without starting family discussion. Here's the thirteen jinx getting in its work again

An eminent archaeologist has confirmed the Bible story of the flood to the extent of establishing the fact that there was a mighty flood but he makes out that it was local rather than general caused by the overflowing of the Euphrates river. Anyway that lets out the Biblical writers who naturally imagined that the lands of which they knew were all there were

Professor Claude Regaud of the Pasteur Institute of Paris says French is dying out as a universal language and will soon be heard in France only. If American travel to France keeps on increasing as it has in recent years it will be something of a miracle if it is heard much longer over there

The chief engineer of the Chicago sanitary district has warned the people of Chicago and the state of Illinois of the dire sanitary conditions which will arise unless the trustees of the district are permitted to issue bond issues without referendum to the voters. It may be noted that such warnings usually are uttered whenever an outraged public shows its resentment of graft by voting down a bond issue for its further exploitation

End of Life-for-a-Pint Law

The twenty eight to four vote by which the Cuthbertson bill as amended in that body passed the Michigan state senate last week presages the near end of what is generally referred to as Michigan's "life for a pint" law. It will be necessary for the house of course to concur in the senate amendment but that is practically assured as the house is lopsidedly dry and the measure has the support of the Anti-Saloon league and the drys of the state generally. Even should the bill be vetoed by the governor it is almost sure to become a law as it can command ample support to carry it over the governor's veto

The bill as presented to the state affairs committee was aimed solely at bootleggers but as passed by the senate it is full of teeth for all liquor law violators. Under its provisions probation terms for prohibition offenders are made impossible. Under it as it now reads Michigan judges must sentence every liquor offender whether he be owner of a pint or the seller of carloads of liquor to a fine of not less than $50 or more than $2 000 or to imprisonment for not less than fifty days or not more than four years. It makes mandatory the duty of every judge to impose a fine ranging from the minimum to the maximum or a sentence ranging from fifty days to four years but while he must do one or the other the matter of doing both is left to the discretion of the court

The Cuthbertson bill when it is enacted into a law will probably prove far more effective than the measure now in force. The present measure must be admitted to be far too severe. The committing of a man or woman to prison for life for possession of a pint of liquor when it happens that the accused has previously been convicted of a felony—and liquor possession is a felony under the present law's terms—is contrary to all sense of justice when it is considered that life imprisonment is the heaviest penalty possible of exaction in Michigan for murder. Alongside it the Jones federal law is mild indeed. The Jones law maximum is to punish the great offenders against prohibition not the hip pocket variety. The limit under the Jones law is $10 000 fine and five years imprisonment no matter how great the offense against prohibition while the present Michigan law makes compulsory a life sentence for a fourth offense. The Jones law can be enforced and so can the Cuthbertson law when enacted but the very severity of the present Michigan liquor law or one like it is inimicable to the cause of temperance for the reason that it will not only defeat conviction in many cases but [illegible] at all times arouse and maintain sentiment against the entire prohibition plan. It is well that its days are numbered

To Man as Well as Marshal.

Those of us who have been reading the many and great tributes to the late Marshal Foch—which means the most of us—must have been impressed by the fact that the great majority of them expressed no less a degree of appreciation of his greatness as a man and a Christian gentleman than they render to the quality of his military leadership. Few of them paid tribute to his genius as a commander without also bringing out the greatness of his soul. This has been true alike of the utterances of individuals and of the press

Such has been the case with the expressions of our own General Pershing and the other United States officers of high command who served under him. Such have been the tributes of our leaders in public and private life. And from all lands come tributes much the same

Premier Stanley Baldwin of Great Britain observed that in the death of Foch there had passed one of the great soldiers of all time and "what is more one of the great souls. I think he will be remembered as long as he is remembered as a soldier as a great Christian a great gentleman and a great man"

Former Premier David Lloyd George speaks of the late marshal's supreme gifts of his bigness of soul and says "He was a man of vision of imagination courage and above all he had that quality that appertains to all true greatness—he had simplicity"

Earl Beatty who was commander of the British fleet during the war describes Marshal Foch as "the greatest man in the greatest war the world has ever known" and says that the services rendered by him were not only services to France but also to the whole world referring to him as one quiet and unaffected as his courage was great and his heart was strong

"He was the man for his opportunity" says the London Times which is typical in its estimate of the marshal of the utterances of the British press. "It was given to him to save the allied cause and he saved it. What soldier could ask a more magnificent epitaph? There has been in military history no clearer, more consistent and in the end no more triumphant an exponent of the weight of moral factors in battles than this soldier of genius a simple chivalrous gentleman whose memory France and England proudly and sadly salute and honor today"

The appreciation of the press the military commanders and the statesmen of all the lands allied in the Great war are in similar vein and it is heart warming to note that some of the tributes come from the lands arrayed in arms against the conquering army he commanded

Former Crown Prince Rupprecht of Bavaria field marshal general paid this signed tribute: "Marshal Foch our foremost adversary was beside General Gallieni who preceded him in death the most outstanding among the French army leaders" and the Neue Freie Presse of Vienna after telling how Austria felt the force of Marshal Foch's masterful strategy and military genius speaks high in praise of him as a great commander in chief and an honored adversary. "No enemy" it says in summing up its tribute "can avoid bowing before his coffin"

It would be good to know that the spirit of Marshal Foch is conscious of such tributes as these paid to the memory of the man of high character great heart and fine soul who who was commander in chief of the armies of the Allies and their American associate in the Great war. Who knows but what they would be more highly prized by the soul of him who is gone than acclaim given his great record in war

To impress his best girl with his prowess a Chicago young man in cold blood killed a mutual acquaintance. It behooves people to be mighty careful about making acquaintances in a town like that

The suggestion of Senator Walsh of Montana that treaties between the United States and Canada might well be ratified by the states of the union directly involved in inherently domestic engagements would hardly be in accord with the provision of the constitution. But come to think of it what's the constitution to the average senator and particularly to Senator Walsh?

Pain Spasms Due to Occupation.

BY ROYAL S COPELAND M D

These muscles of ours have a habit of rebelling against continued wrong use made of them. They are patient but if the demands are too great they will speak out in meeting

In the medical books we read about occupational neuroses. What in the world are these?

They are the spasms or localized pains which follow abuse of the muscles. One example is the condition called writer's cramp

Telegraph operators piano players dress makers typists are liable to these symptoms. In any occupation where long continued monotonous muscular efforts are required in the work one of these ailments may appear

Persons who have good health are not liable to have such trouble. Nervous people—what we call neurotic persons—are more likely to suffer these attacks

The onset of writer's cramp is marked by dull ache or tired feeling in the wrist and hand. Then there is a spasm of marked contraction of the muscles of the arm and wrist

There will probably be trembling of the hand and fingers. All the symptoms are made very much worse by attempting to work

This trouble is different from neuralgia or neuritis. There is no tenderness on pressure. The nerves are not at all sensitive. But as I have said every effort to use the muscles in their ordinary occupation will bring on the symptoms or make them much worse

The cure is accomplished by prolonged rest. Nothing else will do more than to give temporary relief. Massage baking out of door life lots of rest and sleep and upbuilding of the general health will do wonders. But rest or change of work is essential

I wish we could get people to take care of themselves. Of course our social system is so defective that thousands of men and women are forced to work long hours under evil conditions. The bread and butter problem makes it necessary to work hour after hour and in consequence the nervous system cracks or breaks

When we get wiser as a people and show better sense as individuals the occupational neurosis will disappear. But alas that joyful day is not here. It will come but in the meantime we must do the best we can with those who suffer the effects of overwork and overstrain

Change of work is play is an old saying and a true one. Those unfortunate persons who have a tendency to such cramps as I have described should keep this saying in mind. Frequent periods of change in muscular effort will help to prevent the onset of this trouble

If you have actually developed writer's cramp or any similar ailment there must be complete rest. Every attention to the upbuilding of nerves and health are necessary

Perfect nourishment of the body will prevent and help to cure the ailment. The diet must be well selected. The green vegetables and other vitamin carrying foods are important

An ounce of prevention is worth a pound of cure. Why don't we keep this in mind? If we did the doctors would be out of business. Too many of their patients are seeking relief because of the violations of nature's laws

Editorial Opinion.

THE SUMMER WHITE HOUSE

It may be a little late to put the question but after all what is a summer White House? Upon a satisfactory definition of that term the fate of Mount Weather seems to hang

If a summer White House means a place where a president may go to forget his troubles through recreation solitude and communion with fish and babbling brooks President Hoover for one sees nothing attractive in Mount Weather. If a summer White House means another federal building equipped as a country mansion and within easy automobile distance of Washington to be used or not to be used as the president sees fit the building at Mount Weather for which congress has appropriated $48 000 still may be refurbished and hereafter known as the summer White House

President Hoover it is understood finds no enticement in Mount Weather as a place of real recreation and rest. There are in the first place no fish. In the second place President Hoover prefers to rough it a bit when he goes fishing and does not relish the thought of a thing the part of a president at a summer White House when he leaves Washington on a holiday. If the money appropriated should be spent on Mount Weather one wonders what use President Hoover would find for it

But it would be extremely unfortunate if the idea of a permanent summer White House were allowed to die because President Hoover prefers to spend his playtime elsewhere than Mount Weather. When President Coolidge suggested the summer White House he advanced a good reason for it. He envisioned a place near Washington that offered the benefits of change that promised refreshing relief from hot summer days in the capital and that could be reached in a relatively short drive by motor. He did not suggest Mount Weather. The responsibility for choosing a location rested with congress and congress chose Mount Weather the chief reason for the choice being apparently that Mount Weather was available

A summer White House is not necessarily a penitentiary in which presidents will be sentenced to spend all their time away from the capital. They could leave it at will to go fishing hunting or take trips to the seashore and still violate no law. For that reason it is hoped that President Hoover will have Mount Weather remodeled and conditioned or else suggest to congress that the money already available could better be used in another and better location —Washington Star

A DANGER TO THE REPUBLIC

Mrs Nettie B Loughead Ohio state senator and guest of the Republican Study club of this city made a statement which will stand frequent repetition when she asserted that the primary system is a disintegrating force and weakens the fundamental principles of good government. Mrs Loughead did not exaggerate in the least when she said that the primary fills legislative halls both state and national with an inferior product of men who are authorized to act as the people's representatives when they are nothing of the sort

And her position that the system is destroying the representation of a free government because instead of being a majority rule the minority holds the upper hand is in accordance with the observation and conclusion of every unbiased student

The adoption of the primary election system was the first really serious blow struck from within at the republic as a potentially permanent institution. It is the biggest single political danger to free government threatening the United States. And if this is true for no other reason it is true because as Mrs Loughead says the primary system in practice substitutes government by minority for government by majority. It is highly probable that the life of free institutions in America will be [illegible] unless [illegible] materially [illegible] of the primary —Detroit Free Press

The Eye of the Scientist.

Even when [illegible] passing generation were child[illegible] science of nature and her laws was [illegible] philosophy. And for the major [illegible] more interesting than its successor [illegible] is today. The scientist now, with the hardest mathematical tools have [illegible] them out of the popular [illegible] can no longer be seen like the philosophers of old panning the gold of new discovery from [illegible] placers. Sir Humphrey Davy still called himself philosopher and [illegible] Tyndall did not disdain the name. The [illegible] loved them—and that is an affection more [illegible] scientists come out of their [illegible]

But when the modern scientist emerges [illegible] wanders in sight he brings with him an atmosphere which casts a glamour over common scenes of the upper world. How [illegible] he regards things! Is he a gnome underground or an embodied spirit above? Evidently the world does not [illegible] the same to his as to vulgar eyes. To think that these [illegible] frog stars may be the future fathers of planetary families! Some of them are many millions of miles in diameter

Where the common eye sees only [illegible] nebulous glow in the Milky way this scientist beholds the central metropolis of the universe where suns seem to be crowded [illegible] houses. Where the common eye sees nothing he photographs indescribable wonders. He perceives clouds of ebon darkness as well as bright shining masses filling space. The Way of the World.

BY GROVE PATTERSON

Edward Bellamy a great thinker a man with vision to see far beyond his times wrote years ago a book called "Looking Backward." He saw a better world and he made others [illegible] it. Not long ago a committee at Teachers college Columbia university recommended a plan that had been set forth long ago by Edward Bellamy in a book that many thought was merely the work of an impractical dreamer. Among the plans of Bellamy's Utopia was one for centrally located kitchens which would furnish small communities thus relieving housewives of some of their drudgery. This idea now has the [illegible] of a most modern committee

The college paper in Northampton Massachusetts prints the following notice: "Calvin Coolidge has returned to his home in Northampton after an extended stay in Washington. There was no further comment."

That is exactly as Mr Coolidge would have it. For most of us Americans who are always wishing to make a stir about something or other the ex-president sets a beautiful example. He steps out of private life to do some big jobs in public life. Having properly performed them he steps back quietly and unobtrusively into private life. It is an example of the simple life at its best

Captain Randell said he was 49 years old and was born in [illegible], Newfoundland. He is a resident of [illegible], Nova Scotia, he [illegible]. He asserted he was a master mariner and that he earned a Master of [illegible] that was [illegible].

The greatest secrecy was maintained regarding the [illegible] of late last night. Captain [illegible] gave the following [illegible] of what had happened in the chase and sinking of the ship:

"The cutter Wolcott sighted the 'I'm Alone' at 6 o'clock Thursday morning, 10 miles off the Louisiana coast near Marsh Island. The vessel was apparently anchored and [illegible] boats to get the cargo, said to be [illegible] cases of whisky, loaded at Belize, Honduras. The vessel sped away, the Wolcott following with the [illegible] signals later commanding the skipper to heave to. The order was failed. Then the Wolcott fired blank shots and later solid shots through the rigging of the two master schooner.

Fires, Blanks, Solid Shots

"The schooner's skipper then shouted, through the megaphone, permission for Commander Frank Paul of the Wolcott to come aboard, unarmed, and without an escort, for a conference. Following a brief conference the commander departed upon Captain Randell's refusal to submit to seizure and the chase through choppy seas was resumed, continuing until Friday morning.

"When the Dexter demanded that the schooner heave to she was answered with a threat to shoot the first man to board the ship. The Dexter then fired blanks and later solid shots, ripping the rigging away but the schooner, equipped with two powerful gas engines, was making rapid headway for Mexican waters safety about 100 miles distant, when the sails were crippled.

"When the three-inch gun hit the hull the crew leaped overboard but the lifeboats had been shot away and the men began swimming as the schooner sank. It went to the bottom in an hour carrying with it all tangible evidence."

Consul Investigating

The all-day examination had been in charge of Assistant Attorney General Henderson who came here from Washington to handle the case.

Captain Gamble and H. W. Crayton, supervising agent of customs here, report that the schooner was exceedingly swift and would likely have reached Mexican waters if the rigging had not been ripped away.

The British consul here was reported to be "investigating and awaiting instructions." He was expected to make a statement late today after further consultations with coast guard officials.

City's Holy Week Program Is Opened With Impressive Palm Sunday Observance

Catholics and Protestants Conduct Special Services at Temples of Worship; Three Masses Included in Program at St. Mary's Church

Holy Week, the most sacred week in the church calendar, was opened here yesterday with Palm Sunday services at Catholic and Protestant churches, each church observing the day either with ceremony or sermons of the [illegible].

St. Mary's Catholic church opened the Palm Sunday services with a 7 o'clock mass, celebrated by the Rev. Father William J. Gorm [illegible] of Columbus, a children's mass at 8:30 o'clock by the Rev. Father William J. Spickerman, and high mass at 10:30 o'clock by the Rev. Father Herbert McDevitt. Thirty acolytes assisted the Rev. Father McDevitt in the mass. Distribution and blessing of palms, the procession of palms and reading of the Gospel by the Rev. Father Spickerman were features of the mass.

At Episcopal Church

St. Paul's Episcopal Church was decorated in palms for the morning worship at 10:30 o'clock yesterday. There was a large congregation for these services, which included the procession of palms. The Rev. S. S. Hardy gave a sermon, "I Am the Way, the Truth, and the Life." The Rev. Mr. Hardy is holding services of litany and [illegible] communion Monday, Tuesday, Wednesday and Thursday nights at 7:30 o'clock in the church chapel as his Holy Week observance services.

Dale Schwaderer, Dorothy Mae Conklin, Eleanor Zeig and Ruth Ellen Hoffman were confirmed by the Rev. H. E. Weckmueller at services Sunday morning in First Reformed church. Special music was provided by the junior choir. Last night a reunion of the six confirmation classes of the Rev. Mr. Weckmueller was held, and two classes, those of 1924 and 1929, responded with perfect attendance.

Talks Given

E. Harold Klingel gave a talk, "What I Mean to the Church," and Miss Mary Margaret Wires talked on "What the Church Means to Me." Between the talks, Knox Dunlop, a guest of the church, sang "Open the Gates of the Temple." The Junior choir sang "Knowing the Father" as a special song in its evening service.

Attendance at Trinity Baptist church rose to 562 yesterday and the goal was set for over 600 for Easter Sunday services, according to the Rev. Lawrence A. Wood pastor of the church. In his sermon on "The Faith That Saves," delivered last night before a crowded auditorium, the Rev. Mr. Wood said: "Salvation has three aspects, past, present and future. Many people think of salvation in one or two of these aspects, but it includes three. These three are forgiveness of past sins, deliverance from present willful pleasure in sin, and future entrance into eternal life.

Easter Reminder

"As we approach the Easter season again," he continued, "we are reminded of the marvel of the love of God. The Creator of the universe came in the person of Jesus Christ to the earth, one of the tiniest specks among the vast multitudes of the heavenly bodies composing the universe. He came for one definite purpose, to save man from his sins. Men are willing and eager to accept of material gifts. Why then are men often so indifferent in regard to accepting God's offer of personal salvation? The spiritual offer is nothing less than the union of the divine with the human. When Jesus died on the cross and arose from the dead, salvation was provided for man. At Easter we pause in reverent amazement at the [illegible] love of God.

"The faith that saves is that act of trust and confidence whereby man commits himself to the divine Saviour, and then believes that the promises made by God and recorded in the Bible will be fulfilled. The future aspect of faith will be revealed when the Christian rests his eternal destiny in the loving care of God and passes out of this life with assurance that he will awake in heaven transformed into the likeness of Jesus Christ, his living Lord. Easter again reminds all men of the faith that saves."

Services of a like nature were held throughout the city yesterday.

ter (passenger); Harry Smith (pilot); Frank Abels (mechanic); J. A. Boyd (mechanic).

Races Train

Finucane, business man and sportsman, had hired the plane for the northward trip. Before leaving Miami, the Rochester sportsman bet Edward J. Nobile, of Greenwich, Conn., that he would beat Noble who had taken a train, into New York.

Mrs. Finucane, who arrived here with the party of which Noble was a member, today kept up her hope in her husband's safety in the announcement by officials of the Curtiss Flying Service that it was possible the missing Sikorsky amphibian plane might have come down at sea.

Offers No Landing Place

The coast guard continued its patrol of the coast for the missing plane and the boats swept a further area in the belief that the plane might have been blown out to sea.

The Jersey shore is marshy and wooded and offers no landing place for a plane in distress. It was recalled that Capt. Emilio Carranza, the Mexican Lindbergh, met his death when he crashed into the Jersey bog while attempting a non-stop flight from New York to Mexico City.

The lost plane had been flown 9,924 miles. Smith, the pilot, has a distinguished 10-year flying record.

DONAHEY PUTS BOOZE BUYER WITH SELLER

Ex-Governor, Here Today, Sees Need of Double Action Law Enforcement

Continued From Page One

liefs as numerous drys, Donahey said. This situation, in the former governor's opinion, is teaching Americans *to discard all law through a disrespect for prohibition laws.*

Approves New Law

The former governor favors the habitual criminal bill which was recently passed by the Ohio legislature as a means of protecting this state from an inrush of criminals from other states with like laws. Without this law, Donahey explained, Ohio would be a refuge for criminals from other states who have reached the border line after being convicted *of three crimes.*

"What is the greatest task confronting the government of the state?" Donahey was asked during the course of the interview.

"To furnish service," was his prompt reply.

In his answer the former governor differed greatly from the answer given by many men in public life. He picked out no particular government problem to stress over another. Service to all the people by all the departments of the government is the greatest task of Ohio law-makers and executives, in his opinion.

The former governor applies this same principle to law enforcement. He is strongly opposed to a vigorous enforcement of one law at the expense of another. He does not believe that one law should be singled out for strict enforcement while others are ignored.

"I would not knowingly break any law, whether I favor it or not," he declared.

Donahey is out of public life for good. This was his emphatic statement today.

"I'm getting up in years," he said, "so I must arrange to lay something aside for my old age—something I couldn't do in 25 years in public office."

The salary Ohio pays its governor is insufficient to permit them to save any portion of it, Donahey stated.

The former official declared that during the six years he lived in the executive mansion in Columbus he paid a total of $10,300 for maintenance of the house. This was paid out of his annual salary of $10,000. This, together with other expenses of entertaining, makes it impossible for a governor to provide for his old age, Donahey declared.

If society leaders follow these senators to Capitol Hill the trend may be to revive the ancient custom of [illegible] to live within sight of the capitol. In early days, Washington's [illegible] society lived almost exclusively on Capitol Hill.

The Johnson-Caraway deal meanwhile has irked with Caraway in full possession of Johnson's old home, the famous [illegible] mansion at Rosedale. Mr. Johnson had occupied the old colonial homestead for many years under lease and awoke one morning to learn that Caraway had purchased it. The Arkansas senator promptly gave notice he expected Johnson to vacate the property and the two senators have been at war ever since. Johnson's last lease expired March 4.

Mrs. Gabriel was born in Marysville on Sept. 29, 1862, the daughter of William J. and Margaret Moss Adams Barnett. She was married twice first to Irvin P. The Heart Story of a Woman's Lasting Affections

DELE GARRISON

[illegible] to the Apprehension [illegible] was [illegible] Larry [illegible]

[illegible]

Larry Underwood [illegible]

My dear [illegible] there's many miles away from [illegible] There's [illegible]

"Do you mean you [illegible]"

[illegible]

"I wish I could [illegible]"

[illegible] safe [illegible]

Then Noel asked [illegible] to guard all three, Mary—and Olina and Georges—when they're all in one place and there's so much space out here."

"You've put your finger on the sore place, Noel," Mr. Underwood returned. "Hard isn't the word. Impossible would be better. Oh," as he saw the [illegible] in Noel's face, "I don't mean that now. Everybody's safe for the next few days—they're too eager for us to take any risk—those lads. But they have [illegible] patience and determination [illegible] by what will happen to them if they fail as they're going to try again at the first opportunity."

"Then what's to be done?" Noel demanded in youthful impatience. He flushed a brick red as Mr. Underwood turned mildly quizzical eyes upon him.

"That's what I'm trying to figure out, son," he said softly. And Noel put no more questions.

"There's another thing we've got to consider," he said. "As long as Mary is here the farmhouse isn't going to be a very safe place for anybody."

My terrified thoughts flew to my small son sleeping upstairs and I shivered. But Mr. Underwood paid no attention, and I realized that he deliberately had added this fear to my anxiety for Mary—for some *reason of his own*.

"When is your father expected?" He turned to me.

"Any day now," I returned. "He said in his last letter he would be at home some time this week."

"Oh, let it be soon," he quoted, then turned to Noel.

"Do you know when Princess Olina's lease of The Larches is up? Not that it matters—although she may be fussy—you never can tell about women—some of them, I mean." His bow and smile absolved Lillian and me from his strictures.

"There is no set time, I believe," Noel answered. "She took the place for the season and she can stay as long as she likes or leave whenever she pleases."

"Good," Mr. Underwood replied. "And as for Prince Georges, he has no responsibility except his hotel bill and the hospital charges, neither of which I imagine will bother him. So there'll be nothing to hinder the baiting of the tiger trap."

I looked at him in amazement. What did he mean?

How Science Fights Fat

Not by starving

Some years ago, scientists found a great cause of excess fat. It lies in an organ—a gland. By thousands of tests with animals they found that treating this cause led to loss of weight, and gain in health and vigor. That discovery changed the methods of dealing with excess fat.

That is the basic factor in Marmola prescription tablets. People have used them for over 20 years—millions of boxes of them. They did not starve or overwork. They simply took four tablets daily until weight came down to normal.

Users told the others the results. The use of Marmola spread. Now you see the results in every circle. Excess fat is disappearing. Slender figures are the rule. New youth and beauty, new vitality has come to countless people in this modern way.

Consider these facts. Then, if you are seeking like results, get them in this scientific way. Every box of Marmola contains the formula, also the reasons for results. As fat departs and new vitality returns you will know exactly why. Try the method which for 20 years has brought such delightful results to so many. Do it now. You owe that to yourself.

Marmola prescription tablets are sold by all druggists at $1 per box. If your druggist is out, he will get them at once from his jobber.

Watch for this danger signal—a dirty ring around the washtubs

Ever seen it in your washtubs? Of course you have! Do you know what it means? Of course you know it means the washing has been done in hard water. Soap combined with the hardness and made scum. The scum collected dirt, some went into the clothes, some formed the ring.

Jubilee's Pardner

* * *

A Story of Boyhood Adventure

BY JUDD M. LEWIS

YESTERDAY was Sunday morning and me and Jubilee had fun for a long time and thought about being on the train and it was a whole lot like a dream and I wondered where I would be if I was wherever the train was going to that time. We might have went away out west and have been left in some country where there are not any people and we would of had to cut down trees and build houses and grow up and raise whiskers and vegetables and our fathers and mothers might not ever find out what had became of us and we might have to have the Lost Boys of Tripe with us all the rest of our lives. And when I thought of that I was sorry that we had not had Mealy Gutwaltz along to marry him because it is against the law to [illegible] anyone. But we didn't so it was lucky that we got back.

When I had let Jubilee [illegible] and done my stores and the [illegible] came in where I was milking they all wanted to know if my father did anything to me and I told them he didn't. Peanutses father and [illegible] and Stringy's had licked them because they had been told to keep away from the railroad. Red's father uses a barrel stave which hurts a whole lot but is so wide it don't leave much of a mark. Peanutses father uses a [illegible] stick, and that leaves black and blue marks which changes to yellow and green before they go away. Stringy's father uses a razor strap and that only makes him red for a while. We all looked at them all and Peanutses were the worst. I bet mine would of been the worst if I had got any because my father uses a piece of rubber hose or a holdback strap with a buckle on it. The girls didn't show up and I was glad they didn't.

When I went to the house to feed my face, everybody talked to me at once, and my father told me to keep away from railroads or he would tend to me. He said it was just luck that I found a bighearted man that probably had kids of his own. I told him I knowed it, and I said I was going to remember that man's name all my life, and my aunt asked me what his name was and when I said it was Smith they all laughed. After I got washed and went to Sunday school I found that all the girls had got spanked. I told Toohey when I heard she got spanked that it hurt me worse than it did her, and Feebie looked crosseyed at me and said not in the same place. She is so smart I am afraid sometimes that she won't last long.

It rained and was cold and muddy and everyone looked mad all day today and I don't blame them. One of the stores we passed had the awning busted so it hung down over the front of the store like a shirttail and people that wanted to go into the store had to lift it up. We all went home from school. There was no place to go.

"Not a bit. Fact of the matter is I didn't mean to go to bed tonight anyway. I'm going to stick it out in this chair."

"Why on earth do you want to sit up all night?"

"Oh, because," said John mysteriously.

Miss Lane's eyes were fixed on the floor. She smiled faintly. "Maybe I can guess. You expect him to come back—isn't that it?"

"Him — who?" John's mouth dropped open.

The girl was still looking down at the floor. "He wears a narrower shoe than you do, although the length is about the same."

John choked on a whiff of tobacco smoke. He traced the girl's gaze and saw that she was looking down at the footprints on the floor now re[illegible]

"Well, not quite a cripple exactly. All [illegible] he comes down much harder on one foot than the other. Maybe he's only limping from a recent injury."

John eyed her curiously. "What [illegible] is me [illegible] a girl as smart as you are could lose her way as badly as you did tonight."

"Well—" she stretched herself luxuriously—"since I had to get lost, I'm glad I came to Valhalla Notch."

DIET AFFECTS ART, SAYS PHOTOGRAPHER

Sioux City, Iowa—A photographer can't eat and drink just anything and still take good clear pictures, according to W. S. Tripp, [illegible] Street, news photographer. Mr. Tripp knows because he found that the quality of his work was suffering because of a single mealtime habit. That it was this one habit that was affecting his photographs. Mr. Tripp [illegible] by changing his diet in this respect. The full story of his experience follows:

"My work as a news photographer covering the states of Iowa, Nebraska and South Dakota is one requiring steady nerves and a clear head at all times. Most all of my meals were of the rush and run variety and for many years, in fact up until about fifteen months ago, I always took caffein with each and every meal.

Warned by Friends

"Several friends warned me that some day I would be forced to give up the habit or the quality of my work would suffer. They were right. A little over a year ago the deadly caffein began to get in its work with a vengeance. My sleep was broken; I awoke nearly every morning with an awful headache and a dizziness that certainly affected my eyes. Many times I barely got by with the photographs I delivered to the engravers.

"I realized that I must do something and do it quick. My decision to make the 30 day test of Postum proved the best thing I could have possibly done. In a few days I could notice a wonderful change and before long my old energy and pep returned and I could sleep like a harvest hand after a busy day."

A Common Mistake

So many people in the rush and bustle of the day's duties take whatever is set in front of them without giving heed to the consequences. Meal after meal they drink beverages containing the harmful drug caffein. And in time they pay the penalty. Pay it in sleepless nights, in jumpy nerves, in impaired digestion.

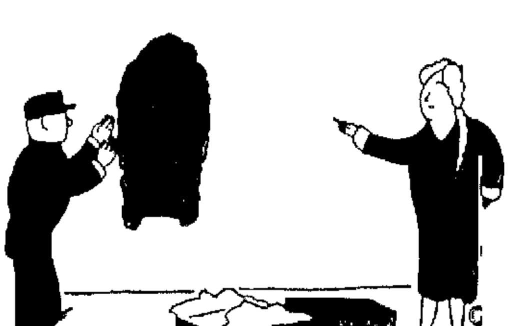
Forewarned is forearmed! Take Mr. Tripp's advice and eliminate caffein from your diet now! Make Postum your mealtime drink instead! Try this change for thirty days—then judge! On a basis of results you, too, will become a Postum user for life!

For Postum helps you instead of harming you. Postum is made of roasted whole wheat and bran—no trace of any artificial stimulant in it. Nothing to get on your nerves, to affect sleep or digestion.

You'll enjoy Postum for its flavor, too—a rich, full-bodied flavor that millions prefer.

Your grocer has Postum in two forms—Instant Postum, made instantly in the cup, and Postum Cereal, prepared by boiling. Both cost much less than most other mealtime drinks—only one-half cent a cup. Order today—start your 30 day test!

LISTENING IN ON THE PENNYWISE FAMILY



"No Room and Board for Moths Here" says Ma Pennywise

"THE best way I know to offer 'open house' to all the local tribes of moths is to pack away the winter clothes without having them thoroughly cleaned. The best way to effect a fast and famine among the moth colony is to have all the things completely renovated. No moth is going to make a table d'hote of my winter coat—or Pa's either. 'One moth can do enough damage to pay the cleaning cost ten times over per garment."

It was found that the two boys had been stealing chickens from the Newson farm south of town of which Mrs. Bennett is the owner. The house burned on this farm early last fall giving the boys an ideal chance to get the chickens.

On the night of March 16 the two boys went to the farm and carried away 28 pure bred Buff Rock and White Wyandotte chickens which they sold in Lexington for $65.

The Lexington dealer, suspecting them as thieves and from Morrow county, because of the license number, secured the license number and sent it to Morrow county officials. Arrests were immediately made by J. P. Bennett and the thieves placed in jail.

Advisable Funeral Service
THERE is more than merely an established routine for the mortician to perform on the occasion of a funeral.
Various requirements differently arise, to which the efficient mortician attends without being asked. The comfort of the family as well as the care of the one departed most always presents many special needs requiring experienced consideration.
And the kind of funeral service which the foregoing suggests is what we offer, and advise.

SPIRIT WORLD TO BE SERMON TOPIC

Subject for Tonight at Epworth Church Announced by Dr Paul

We Hear from the Spirit ... subject will be discussed by Dr John Paul ... Epworth M E church ... family night also and an ... given the largest family ... sitting together.

... preached two sermons yesterday to large congregations and said in one of them God sent His Spirit to heal all the varied needs and maladies of the nations. The ... of the Holy Spirit was much more comprehensive than conversion and sanctification. Although ... the Holy Spirit includes these ... the adequate meeting and satisfying of our ever human and eternal necessity.

But this heavenly blessing must be literally sold by the highest type of Christian salesmanship to the needy throngs. It is not sufficient alone that Christ has come and that the Holy Spirit has been poured forth in order that humanity may have its needs supplied. This Heavenly provision styled The Gospel of the Lord Jesus must be put on the market and mankind strange as it may seem must be induced ... to seek it to experience it.

Men and women and youth and old age may live in the very midst of many who have been healed upon whom Jesus has wrought and yet go through their lives without ... or acting upon this light that has come into the world that ... may be saved. It is the chief business of the church to advertise and sell to a needy world this Gospel of Divine Healing. It goes without saying we first must live it ere we can induce others to buy it.

RECREATION BALL

IT won't be long now as the old maid said as she made her first trip to the barber shop until Marion's most popular of sports—recreation ball—will again occupy the limelight.

• • •

MAKING PLANS

ALTHOUGH no definite dates have been set it is understood that the season will officially open about May 1. In the meantime there is much for the 'fathers' of the game to do.

• • •

NEW COMMISSION

Plans are being formulated for the annual organization meeting when a new commission will be named, new rules adopted and schedules drawn up. That meeting will be held within the next two weeks with a banquet as the drawing card. It probably will be held at the Y M C A.

• • •

SHOULD CHANGE RULES

ONE of the outstanding questions that should be taken up at this meeting is that of rules. Last year considerable difficulty was experienced especially in the Sunday School leagues with the old rules. The commission and team representatives should take every possible step to avoid reoccurrence of such trouble this season.

• • •

CUT DOWN RULES

FEWER rules should be the motto of the league this year. Only regulations necessary for the operation of the league should be included in the 1929 edition of Marion's recreation ball guide. And these should be written so that there will be no chance of misunderstanding. If this is done their should be no excuse of any team making flagrant violations.

• • •

ELIGIBILITY TROUBLESOME

SPECIAL care should be taken with the eligibility rules. These cause more trouble than any others. The Sunday School leagues seem to be always getting into difficulties over them.

• • •

TEAMS ORGANIZING

A LARGE number of teams have already organized for the start of the season. Banquets have been held and managers are casting about for new materials that has not been uncovered in the seasons that recreation ball flourished here.

• • •

FOUR OR FIVE LEAGUES

INDICATIONS now point to the fact that four eight team leagues will be formed. If more teams enter a fifth league will be added for officials believe that nine or 10 teams make the schedule too long. This was discovered last season.

• • •

THERE is talk going the rounds now of organizing a fraternal league. This would solve the problem of what to do with more than 32 teams. The Eagles, Masons and K of P lodges will probably form the nucleus of the loop. There are a number of other organizations that could enter under this class.

To provide the table of a transatlantic steamship with its luxuries one trip will often call for a supply of 250 turkeys, 500 pigeons, 500 ducks, 200 pheasants, 1,000 quail and five 110 pound turtles.

INDIANS FACE SECOND DIVISION

FIFTH PLACE FINISH WOULD BE BETTER THAN LAST SEASON

One Weak Spot in Cleveland Infield May Cause Downfall

NEW ORLEANS March 25—The 1929 Cleveland Indians are not going to win the American league pennant. The 1929 Indians are not going to finish in the place position. The 1929 Indians will not even be the show horse. But the 1929 Indians appear to have an excellent chance of copping the second division and mayhap squeeze their way just inside the first division. And if they should finish in fifth place it will be a decided improvement over last year and the season before.

The Indians are not a great ball club. In fact one would be drawing on one's imagination to term the Indians a good ball club. But when you term Roger Peckinpaugh's hirelings an interesting ball club you are hitting the nail plumb on the head. And an interesting ball club that believes in itself at times accomplishes as much and even more than an outfit that stacks up as a good ball club on paper.

Outfield Improved

The biggest improvement in the 1929 Indians is in the outfield. For two years now the Tribe has had a one man outfield, Charley Jamieson. This year the Cleveland club has three new fly chasers each of whom rates as good as Jamie in 1927 and 1928 or even better. They are Bib Falk, formerly of the Chicago White Sox, Earl Averill of the San Francisco Seals and boast of the Pacific Coast league, and Dick Porter for seven years a real bearcat with the Baltimore Orioles.

This quartet punch the ball from the offside of the plate so in order to have a little right handed reserve hitting strength the chances are Peck will carry Eddie Morgan who averaged more runs driven in than any other Indian last season and Charley Dorman who did a man's size job in substituting for Jamieson in the sun field late in the campaign. Falk was secured in a trade and cash deal with the White Sox, Catcher Martin Autry going to Chicago while Averill and Porter cost the Cleveland club close to $100,000.

Catching Staff Good

The Indians are sitting pretty in so far as catching goes with the much sought after Luke Sewell heading the trio of backstops, Glenn Myatt ranking as second string catcher and the veteran Grover Hartley as number three. There is some talk of acquiring still another big mitt artist but Manager Peck appears to be content to worry along with these three and who wouldn't.

Three spots on the infield appear to be well taken care of but the fourth may work the undoing of the Indians in their efforts to land in the first division in much the same manner the same spot brought about the undoing of the Philadelphia Athletics in their drive for the pennant last season. Joe Sewell, veteran shortstop transplanted to the duties around third base, acts very much as if he 'were to the manor born' at the hot corner. He'll prove a better third sacker than he was a shortstop and he always ranked high at his old position.

Tavener at Short

Johnny Tavener, secured from Detroit in the deal that took George Uhle, veteran pitcher, away from the Indians knows what it is all about at short and is giving an excellent account of himself. Carl Lind who was the find of the major leagues last season will be back at second base and there isn't a manager in either major league who wouldn't be willing to string along with the New Orleans boy.

First base is the big question mark. Johnny Hodapp who didn't quite measure up at third was being groomed for the position because of the fact he wields a devastating bludgeon but he injured his knee last week and may lose out to Lew Fonseca who while a fielding marvel hasn't the punch at bat that Hodapp boasts. It is possible that Manager Peck will give young Morgan a whirl at first basing.

The two extra infielders in addition to the five mentioned probably will be Johnny Burnett who is being groomed for third base and Ray Gardner who stood out like the best shortstop in the business with New Orleans last season.

With three catchers, six outfielders and seven men for the infield works it would be possible for Manager Peck to carry around nine pitchers. And nine hurlers should be enough for any ball club for if a team can't win with nine hurlers it wouldn't get any farther along in the pennant race with 12 or 15. Peck has three veteran right handers.

"600 Millionaires" Almost Left Jack Holding Bag as Flop Threatens Fight

(Editor's Note: This is the first of two articles which will describe Jack Dempsey's break with the Madison Square Garden powers of New York City. Menke, famed for years as a fearless writer on sports, is perhaps Dempsey's closest friend in newspaper circles. Menke's second article on the Garden-Dempsey split will be published Tuesday.)

• • •

BY FRANK G. MENKE
Copyright 1929

NOW that Jack Dempsey definitely has spurned the chance to hook up with Madison Square Garden the story detailing the whys and wherefores can be told.

Dempsey

At least two weeks before the Sharkey-Stribling mixup was staged at Miami, Dempsey and William F. Carey, then vice-president of the Garden, had something of a tiff over ticket distribution and it was forecast then that Dempsey was washed up with the Garden and its present methods.

After the fight was over and Carey had returned to New York, leaving Dempsey in Miami, Carey dealt out interviews which intentionally or otherwise grabbed the glory for the Miami promotion for himself and belittled Dempsey's labors. All which prompted Dempsey to regard the Garden crowd unfavorably.

Nearly Private Enterprise

The Stribling-Sharkey bout was Tex Rickard's idea and it practically was going to be a private enterprise. The Garden executives did not think it would be a good draw and from the start made their views known to Rickard. But Tex wanted that fight in Miami so as to serve as a ballyhoo for his real estate enterprises. Therefore he went ahead with it under the auspices of the Garden by agreeing that if the fight lost money he would stand the loss personally although the Garden was to get the profits if any.

Rickard died before anything concrete had been accomplished. On his deathbed he asked Dempsey to carry on for him—and Dempsey promised to do so.

As is generally known the Garden was not keen about going ahead with the show after Rickard died. Dempsey told the Garden officials that if they did not care to go ahead with it, he would take over the show and promote it personally. At last the Garden agreed to string along provided Stribling could be secured on a percentage basis and that Sharkey would fight for $75,000 instead of the $100,000 which Rickard originally had offered him.

Used Own Funds

It is well known that Sharkey held out for that $100,000 and the Garden would not go higher than $75,000. There the negotiations deadlocked until Dempsey finally offered to guarantee Sharkey the other $25,000 out of his own funds. Sharkey thus being assured his $100,000 accepted and signed articles.

It develops that Carey learning that Dempsey was willing to risk $25,000 of his own money showed sportsmanship by insisting that he and Jack go 50-50 in the affair. The result was that Dempsey and Carey jointly agreed to pay Sharkey $12,500 each in case the fight flopped and the gate was not sufficient to pay Sharkey more than $75,000.

After Carey and Dempsey returned to New York the private deal they made with Sharkey was explained to the Garden executives. They pondered over the thing for a while and then declared that the Garden would guarantee the entire $100,000 thereby relieving Carey and Dempsey of the burden in the event that the fight was a bloomer.

Garden Stays in Background

Dempsey then was rushed to Miami to put on the ballyhoo and proceed with the fight plans. He was made promoter and was in full charge of the entire affair. The Garden and all its people kept discreetly in the background. If ever a fight seemed destined to be a flivver that Sharkey-Stribling thing was it. And the Garden didn't want to stand the rap.

The point was that if it flopped the Garden could place the blame on Dempsey thus maintaining its own prestige.

So none of the Careys and none of the others galloped into Miami with a pulmotor. All they did was to send Dempsey and put it up to him to sink or swim, the very general notion being that he would sink—deep in the red at that!

On a trip from Los Angeles through the Panama Canal I arrived in Miami two days before Dempsey got there as ballyhoo man for the show. Just about the first thing Dempsey said when he reached Miami and was discussing the ballyhoo with him was:

"This is the toughest fight of my life. Sharkey isn't much of a drawing card, nor is Stribling in the eyes of the public. And the folk already are throwing plenty of rubbish at the show. But I'm going through with it and I'll put it over if it's the last thing I do."

After which Dempsey added:

Was To Be Boss

"When I agreed to promote for the Garden it was upon the condition that I was to be the boss in everything. If the show takes a bad dive the fault will be mine. Furthermore I got the Garden people to agree to it that the newspaper men would be treated courteously and decently—not like orphans or step children. On top of all that they agreed to let me sell the tickets on the basis of first come first served with good tickets. There won't be any ticket scalping or ticket juggling or any ticket scandal connected with this fight."

That's where Dempsey was wrong and that is how the argument arose between Carey and himself.

WALKER - LOUGHRAN BATTLE WILL OPEN NEW CHICAGO ARENA

Title Holder Has Everything To Lose in Championship Fight

BY DAVIS J. WALSH

NEW YORK March 25—[illegible] the old brother-in-law in the plumbers supply business has taken up the matter of making boxing forget Rickard. It's Paddy Harmon this week by right of succession and by right of several other things, including a lot of very valuable [illegible]. Patrick is opening his new $[illegible] Chicago arena on Thursday night with the Walker-Loughran fight for the light heavyweight championship and the occasion is most important to the man for reasons not exclusive of the fact that all Loughran may stand to lose is everything.

He is going in there with his championship crown over one ear against a smaller and lighter man and it isn't necessary to add that the champion who does that is not giving himself all of his pocket money. If he beats Walker impressively what of it? Everybody will say that he hasn't proved anything except that the light heavyweight champion can beat the middleweight champion. If he doesn't beat Walker impressively then he must abandon all idea of playing with the heavyweights, an idee fixe, as we say in Latin quarter, which has kept him out of New York boxing for nearly a year. And in case he blows the decision—good night, torch.

Walker Can't Go Wrong

This of course automatically makes it a great spot for Walker. He can't go wrong, so maybe he will go right. Walcott and Jack Dillon used to hang the big guys out to dry. Walker himself did this with McTigue and Emmanuel over whom Loughran got a disputed decision. Walker probably thinks he can repeat with Loughran though not necessarily so. Walker would have to be a chump not to realize that in taking this match he placed the burden of proof on the other guy competitively and financially.

Loughran Takes Chances

When the latter difficulty is unsnarled they probably will have a squad of bank examiners picking up the pieces for Loughran has made an arrangement that defies ordinary comprehension. He first of all is taking [illegible] per cent of the net receipts. This would be great, if he were keeping it, but he isn't. Out of this sum he must pay $20,000 to Leo Lomski and Tuffy Griffiths principals in the semi windup. Out of this sum he has agreed to give Walker $[illegible] if Mickey loses or gets a draw and it must be assumed that Loughran expects him to do no better than this. If Walker wins however all Mickey gets is $10,000 and the title.

In other words Loughran is promoting Paddy Harmon's fight for him and if that doesn't make Harmon a smart hombre I hope to drive up in a hearse and record failure. Rickard spent 20 years of his life promoting fights but the best he was able to do was to get a fighter to fight for him. This underwriting of the fight must have relieved Harmon of a lot of the usual anguish that goes with the opening of a new arena of the proportions of this one.

FLYNN TO MAKE JACK'S MATCHES

NEW YORK March 25—Leo Flynn, veteran pugilistic manager, trainer and match maker, has been appointed as matchmaker for the new fistic combine of Jack Dempsey, Humbert Fugazy and company.

Flynn trained Dempsey for the second Tunney fight and has managed a large stable of fighters including Jack Renault, Tiger Payne and [illegible] Gorman. He once was matchmaker for Madison Square Garden, now [illegible] chief rival of the Dempsey-Fugazy combine.

COLUMBUS TO PLAY

Wysong Will Start Game Against Rochester Team

LAKELAND Fla March 25—Columbus Senators of the American association were to meet the Rochester club, International league champions last year, here today after a day of rest from the strenuous training. Slim Wysong has been chosen by Manager Harry Leibold to be the starting pitcher. Critics at the Senators see little hope for this year's team unless the Cincinnati Reds crash through with some players to bolster up the present lineup. The infield seems intact but the outfield lacks strength. A good catcher such as the veteran Shinnault is needed badly.

CUBS SWEEP SERIES WITH TIGERS, TAKE FINAL 8-5

LOS ANGELES March 25—The Cubs were enjoying a well earned day of rest today following their fifth consecutive victory over the Detroit Tigers. Hack Wilson's homer with three men aboard in yesterday's closing game clinched the clean sweep for the Bruins. The final score was 8 to 5.

VANCE TO PITCH

ST PETERSBURG Fla March 25—With Dazzy Vance scheduled to pitch the Brooklyn Robins hoped to make it two straight over Boston today. They scored their first triumph of the season over a major league opponent when they swamped the Braves at Clearwater yesterday 7 to 2.

A plant in Germany that has been producing 100 tons of synthetic gasoline daily from lignite expects to produce 100,000 tons this year.

A AND B DIVISION FIVES PREPARE FOR SEMI-FINAL GAMES

Six Teams Will Play in Boys' Section of Tournament

GAMES TONIGHT
Class C Division
7—Central Christian Church vs Four Point Pioneer Club
7 45—Waldo Wildcats vs Vernon Heights Torch Club
8 30—Trojan Pioneer Club vs Room No 2[illegible] Central Junior

• • •

BY BOB ELLIOTT

GETTING a rather belated start, Class C teams in the Marion County amateur basketball tournament which is being played at the Y M C A here last week will swing into action at [illegible] tonight on the upper gym floor. Six teams are entered in [illegible] which is for boys under 1[illegible] years of age and half of these will be [illegible] by 9 o'clock tonight.

All six teams will play [illegible] with the bye to be given [illegible] second round. At the end of tonight's games the managers of the [illegible] winning teams will meet and draw [illegible] which two teams will play each other, the remaining team will therefore get the bye and the right to enter the finals to be played Thursday night.

Followers of all six teams are claiming victory for their respective idols but according to unbiased spectators the Four Point Pioneer club and the Vernon Heights Torch [illegible] have the best chance to come through with the Waldo Wildcats being the dark horse in this division.

At 7 o'clock tonight Central Christian church will battle the Four Point Pioneers, followed 45 minutes later by the Vernon Waldo [illegible]. The evening's program will be concluded with the Trojan Pioneers battling the quintet from Room No [illegible] at Central.

Semifinals in all three classes of the tourney will be played Tuesday night on the lower gym floor. Harding High cagers who have been picked by most of the followers of the Class A division to take the championship in a romp will meet Pleasant in a game that has [illegible] bors guessing.

In the other A semi Steam Shovel, the dark horse of its division will meet the Standard Oil quintet. Shovel has defeated the United Brethren and Waldo Clodhopper fives while Standard Oil had its hands full in setting down the Waldo Lutherans in the second round after drawing a bye in the first. However Standard Oil and Hi-Y are favorites to meet in the finals Thursday. In Class B semifinals Harding Juniors will meet Presbyterians and Central Junior will battle Harding Hi-Y. Central and Harding Juniors will more than likely meet in the finals of this division.

TODAY'S REVIEW OF GRAIN MARKET

CHICAGO March 25—An easier tone in the local grain markets early in the week culminated in drastic price breaks Friday and Saturday as discouraged and nervous longs liquidated heavily

Wheat was the weakest of the grains A heavily oversold market lack of speculative short interest to steady the decline favorable crop news and a shortage of bullish incentive to promote new buying were the factors leading to the sharp break Net losses of [illegible] were sustained

Corn was the strongest [illegible] the fore part of the period on better cash demand heavier shipments and lighter movement but heavy selling and liquidation appeared with the break in wheat and prices declined in sympathy The feature of the local trade was the heavy volume of shipping sales mainly to the East [illegible] 963,000 bu Price losses were 1½@[illegible]c

Oats Receipts Small

Small receipts and [illegible] continued good cash demand caused oats prices to rule relatively steady In sympathy with weakness in other grains however net declines of 1¼@[illegible]c were registered

A narrow trade in rye resulted in price changes being mainly a reflection of changing wheat values and with the trend of the latter sharply downward [illegible] sustained losses of 1[illegible]@[illegible]c

Sentiment toward wheat grew more bearish as the week progressed and no bullish incentive developed Crop prospects grew brighter as reports indicated that Winter killing so far appears to be [illegible] average While there are indications that stand is poor in some sections weather has been very favorable Rains the latter part of the week and forecast for this week lessen the danger of damage from blowing

Most of the heavy accumulation of wheat and the bullish enthusiasm for the market has been based on expectations coupled with possibilities of crop damage These possibilities offset in some measure the bearish effect of enormous stocks of wheat on hand

However, while disappearance has been heavy exceeding that of a year ago by 100,000,000 bu, the excessive surplus in the United States has not been greatly reduced promising a burdensome carryover unless crops should be small.

CLEARINGS INCREASE

An influx of pay checks and the week-end settlement of accounts brought bank clearings in Marion up to $73,716.37 Saturday This is several thousand dollars more than Friday, but is much less than a week ago, when Saturday's clearings totalled $95,177.29 according to figures at the Fahey Bank, clearing house headquarters

BURNING OHIO MINE AGAIN BREAKS OUT

Villagers at New Straitsville Work Beneath School To Check Fire

NEW STRAITSVILLE March 25—Perry county's perennial peril the burning mine for the second time within a month had broken out into an open conflagration [illegible] seriously threatening to undermine the high school here and indirectly [illegible] slight property damage to that [illegible]

With a sonorous [illegible] which sounded like a distant clap of thunder the flames leaped to [illegible] Saturday night and started eating their way toward the [illegible] a very short distance away

Yesterday morning [illegible] crew of 15 men digging [illegible] of the building and tear[illegible] part of the flooring [illegible] the burning vein of coal and [illegible] to check the fire

Armed with shovels and picks the workers digging in [illegible] of fires mined the smouldering [illegible] It was a dangerous task [illegible] most experienced of miners [illegible] heat made the proximity an [illegible] and the deadly gases created [illegible] potential hazard not to be overlooked

Great concern was felt by [illegible] residents here when a report [illegible] that cases had accumulated under the building An explosion was feared

But the laborers working [illegible] managed to [illegible] and check the flames [illegible] time at least

Ritzy Rosalie

ND Rosalie didn't purchase her muff at the florist's although at first glance one would think it came from there She was merely ordering some tulip bulbs since this is the time of year to begin thinking of a flower garden Rosalie's muff of artificial violets is matched by a corsage and the brim of her Spring chapeau And did you hear about the Summer lady who carried a frilly muff like this with an ice compartment to keep her hands fresh and cool?
